

HALF-DAY MGBC-UNIVERSITY DIALOGUE

Malaysia Green Building Confederation (MGBC) in association with local universities have agreed to initiate a working collaboration to be known as "University-Industry Sustainable Built Environment Collaboration" (UISBEC).

The main aim of the half-day dialogue is to share information on university education programmes or courses and research activities that concern sustainable built environment, with a view of working out strategic directions and collaborations involving local university resources and industries, using MGBC as the common forum.
