MalaysiaGBC Platinum Partner

MalaysiaGBC Leadership in Sustainability Awards 2018

MalaysiaGBC is launching its successful **MalaysiaGBC Leadership in Sustainability Awards 2018** to celebrate leadership in the sustainability of buildings.

Objectives

- **Corporate Targets & Plans | Certification:** To showcase and celebrate the achievements of businesses and projects in Malaysia which are leading the way in green buildings to inspire greater action and impact;
- **Skills & Capacity:** Create learning and knowledge exchange opportunities from the leaders in the region;
- **Awareness:** Build new partnerships that grow the visibility and influence of WorldGBC in the region;
- **Create funding opportunities for the region.**

Target Audience

The awards are open to companies and green building projects of all sizes across the region. Nominations must be through recognised Green Building Councils in Asia Pacific countries.

Three (3) Awards Categories

1. **The Business Leadership in Sustainability Awards** recognise companies which are truly integrating sustainability into their business models and contributing to the transition towards a sustainable built environment. These organisations understand that sustainability presents a long-term business opportunity, demonstrate sustainable practices within their internal and external operations, and show sustainability leadership within the industry.
2. **The Leadership in Sustainable Design and Performance Awards** recognise pioneering green building projects that deliver a range of benefits through a holistic approach to sustainability. These projects go beyond simply minimising their impact by considering factors that lead to positive outcomes for both the environment and people. There are three sub categories under this award: residential, commercial and public.
3. **The Women in Green Building Leadership Award** is a new award presented to an inspiring female leader in our movement. In a traditionally male-dominated industry, we want to recognise the pivotal role that women play in nurturing and activating their communities, and delivering change.

Why should you enter?

- **Raising their profile** – Finalists and winners of the Awards will be profiled through WorldGBC's global press work, social media and other communications activities.
- **Getting in front of the right people** - Businesses and projects are judged by a group of renowned and highly influential figures in the green building industry.
- **Receiving recognition** – The Awards are a chance to celebrate some of the most progressive businesses and projects in a hugely important region for the future of green building.
