# Speakers

## **Tuan Haji Mubarak bin Junus**

Tuan Haji Mubarak is Director of Management Services Department, City Council of Penang Island.

## **En. Ahmad Zabri Bin Mohamed Sarajudin**

Ahmad Zabri Mohamed Sarajudin is the Director of Urban Services Department at Seberang Perai City Council. He is responsible for managing cleanliness and Solid Waste in Seberang Perai. He is the person in charge for Seberang Perai Low Carbon City and Resilient City initiatives. Graduates in the field of Environmental Engineering, he has been serving the local government for 13 years. He is active in environmental related movement in Seberang Perai. Due to his knowledge and talent, he has been appointed to lead several working groups at State and Federal level on environmental related issues.

## **TPr. Herlina Ab Aziz**

TPr Herlina Ab. Aziz is the President of Pertubuhan Penilaian Impak Sosial Malaysia. She obtained Bachelor's and Master's Degree in Planning from Universiti Sains Malaysia and has participated in town planning consultancy since 2001 with the establishment of Peers Consult (M) Sdn. Bhd. Her earliest involvement in the Social Impact Assessment (SIA) Study was in 1999 for the Kuala Lumpur International Airport SIA Study for Jabatan Perancangan Bandar dan Desa Negeri Selangor. With her experience in EIA studies, she has been registered as an EIA subject consultant under the field of Social and Socio-Economic Impact Assessment as well as land use field with the Department of Environment since 2010. Under the public awareness and skills upgrading program of MSIA members, TPr Herlina Ab Aziz is also a trainer for the MSIA Social Impact Assessment Preparation Workshop series, also in collaboration with other organizations, departments and agencies throughout the country.

## **Ar. TPr. Michael Ong Ching Keong**

Ar. TPr. Michael is the Vice President of BYG Group, Part Time Studio Master (Masters in Architecture Programme) and State Appointed Technical Review Panel (George Town World Heritage Site). This paper hopes to highlight the direct and indirect correlation between the underlying intents of some of the urban renewal and building rehabilitation projects undertaken by BYG and the Sustainable Development Goals adopted globally.

## **En. Mohd Ramsyah Bin Ismail**

Mr. RAMSYAH graduated from University of Applied Sciences of Albstadt, Germany as a Mechanical Engineer, majoring in Material and Substance. Currently, he is working as Chief Sustainability Officer (CSO) for Greenviro Solutions Sdn. Bhd. As a commitment to renewable energy business, Greenviro Solutions Sdn. Bhd. have decided in 2018 to setup a new subsidiary company known as Greenviro Energy Sdn. Bhd. and he has been appointed as the CEO of the company. In 2019, he is officially qualified as Grid Connected Photovoltaic (GCPV) competent person by SEDA which allows him to certify technical solar design and consult interested client in Solar Energy business.

# Speakers

## **Ms. Ke Sheau Mei**

Ms. Ke has 14 years' experience in risk management, corporate governance, control improvement, policy development and 5 years' experience in handling the sustainability programme and reporting. In her presentation, Stakeholders such as investors, governments and communities are paying close attention to climate action and SDGs. Businesses must be able to protect themselves from any potential risks, know how to leverage potential opportunities and know some practical steps to institutionalise Bursa's reporting requirements. Over here, she will provide basic understanding about the risks and opportunities and how Paramount report in accordance with Bursa and global framework.

## **Ir. Ooi Zi Xun**

Ir. Ooi Zi Xun graduated from Universiti Sains Malaysia (USM) with a Bachelor Degree of Civil Engineering (Hons) in year 2014. Upon graduation, Ir. Ooi joined M.E.I. Project Engineers Sdn. Bhd. as Civil Engineer. He has been handling project involving both local and international company. Ir. Ooi is a registered Professional Engineer with Board of Engineers Malaysia (BEM) and registered Professional Technologist with Malaysia Board of Technologist (MBOT) since year 2019. He is also a Green Building Index Facilitator (GBIF) since year 2017. He holds various position in professional societies such as Malaysia Green Building Council Northern Chapter, The Institution of Engineers, Malaysia (IEM) Penang Branch and Society For Engineering Geology and Rock Mechanics Malaysia (SEGRM).

# Moderator
