## Speaker

### Ar. Kuee Sheau Shyuan

Ar. Shyuan is the Principal Architect at Kuee Architecture. She graduated from the University of Sheffield with a First Class Honours and completed her postgraduate studies at UCL's Bartlett. Upon graduation, Ar. Shyuan's strong interest in sustainable architecture brought her to work for the world renown architecture firm Foster + Partners in London. She became a RIBA (Royal Institute of British Architects) Chartered Architect in 2010 and subsequently set up her Chartered Practice Kuee Architecture and passed her LAM registration examination on her first attempt.

Ar. Shyuan became a Green Building Index Facilitator in 2018. Recognizing her continuous contributions in this field, she was elected as the committee member of malaysiaGBC (Malaysia Green Building Council) to help promote the sustainable scene in the country.

## About BVH, 1 Lasam

Taking 10 years to conceptualize, 1 Lasam is the first GBI Platinum Building in Perak. BVH, 1 Lasam is also the winner of The Edge - PAM Green Excellence Award 2022. Its V-shape footprint designed to maximize the footprint, with a courtyard carved out in the centre for natural ventilation throughout. Fully built with exposed red-bricks and concrete, this green building is also entirely powered by solar panel. Lush greenery occupies breakout spaces for the worker who to enjoy views out to the nature. Double layered brick walls at the west facing facade cut down heat gain substantially. 1 Lasam is a bold addition to Ipoh's cityscape and contributes positively to the country's sustainability scene.
