

# 2024 Pathway to Climate Neutral Data Centre - GBI Pro Series

TUESDAY  
**04 JUNE**

TIME: 8.30 AM - 5.30 PM

VENUE: REKASCAPE CYBERJAYA  
*Persiaran APEC, Cyberjaya, 63000  
Cyberjaya, Selangor*

The demand for data centres is surging in response to the ongoing digitalization of our world. These facilities play a critical role in hosting and processing the immense volumes of data generated across various industries and applications, including cloud computing, artificial intelligence, and the Internet of Things. Nevertheless, meeting this growing demand while simultaneously striving to achieve global goals such as attaining net-zero emissions presents a considerable challenge. We invite our speakers to share their insights and guide us on the journey to establish environmentally friendly data centres in Malaysia.
