GBC MOSAIC: GLOBAL PERSPECTIVES, LOCAL IMPACTS

SPEAKERS

Mr. Mitch Gelber

Chief Executive Officer, malaysiAGBC

Mitch Gelber is the Chief Executive Officer of the Malaysia Green Building Council (malaysiAGBC), where he helps lead national efforts in built environment policy alignment, industry engagement and market transformation, supporting climate resilience, carbon reduction and sustainable development. With over two decades of experience across architectural design, urban development and sustainability, he has been based in Malaysia since 2007. As Chair of CarbonScore—malaysiAGBC's flagship lifecycle carbon initiative—he supports the development of credible, data-driven frameworks aligned with Malaysia's climate commitments. An active member of the World Green Building Council CEO Network, Gelber works with Green Building Councils across the Asia Pacific to advance shared climate goals.

Mr. Jeff Oatman

Head of Membership & Collaboration, Green Building Council Australia

Jeff is responsible for driving high levels of satisfaction and engagement across GBCA's national membership, helping organisations get the most value from their involvement. Over the past five years, he has overseen record levels of member revenue growth, reflecting the strength of GBCA's engagement strategy. Beyond his work at GBCA, Jeff contributes to the global green building movement as Chair of the World Green Building Council's Asia Pacific Regional Network since 2023, where he leads collaboration among regional councils, advises on strategies to enhance collective impact, while also contributing to policy priorities and initiatives that promote sustainability in the built environment across the region.

Ms. Gabrielle Pavicic

Green Star Program Lead, Green Building Council Australia

Gabrielle Pavicic is the Green Star Program Lead and a rising force in Australia's sustainable built environment. Recognised as the 2025 Sustainability Awards – Emerging Sustainable Architect/Designer, she leads Green Star Fitouts, the transformation of Green Star – Interiors, and Australia's first circularity-focused rating tool. Gabrielle blends architectural thinking with systems-level insight, helping accelerate the shift from a take-make-waste model to a more regenerative, circular future. Her collaborative spirit is informed by formative experiences, including bushfire recovery on the NSW South Coast and participation in the Glenn Murcutt Masterclass through the Architecture Foundation Australia. A recipient of the Noel Chettle Memorial Art Prize, she is widely respected for her integrity, creativity, and commitment to meaningful, positive change in the built environment.

Ar Johnny Ooi

Principal, Johnny Ooi Architect

Ar Johnny Ooi is a graduate of the University Oklahoma, USA and an established architect with more than 30 years of experience in the architectural field. Ar. Johnny conscientiously strives to maintain an innovative design agenda and exhibits a strong desire to “push the envelope” with imaginative problem solving & lateral thinking. He has provided design leadership on a large variety of projects over a broad range of sectors including shopping mall, hypermarket, service apartment, office, hotel and resort, landed housing, mixed development, educational institution, industry, heritage conservation, township and urban planning.

MODERATOR

Ir. Ts. Dr. Siti Norbaizura Md Rejab

Council Member of malaysiAGBC 2025-2027

Ir. Ts. Dr. Siti Norbaizura Md Rejab is a Sustainability Consultant with over 15 years of experience in low-carbon development, green building certification, and ESG advisory. She holds a PhD in Environmental Science from Okayama University, Japan, and is professionally accredited in multiple local and international green rating tools. She has led numerous sustainability initiatives for industrial parks, commercial buildings, and public infrastructure with a focus on decarbonisation, life cycle assessment, and integrated ESG solutions.
